

SUBJECT INDEX

AAPA policy/position papers

Competencies for the physician assistant profession 07:16-18
 Maintaining professional flexibility: The case against accreditation of post-graduate physician assistant programs 08:14-16

AAPA Voice

A celebration of our accomplishments 09:17
 AAPA and you 11:15

A Day in the Life

Christine Canning, MHP, PA-C 06:27-28
 Barbara Kimmons, PA-C 12:28-30
 Lynn Tyrer, PA-C 08:17-18
 R. Shane Tubbs, MS, PA-C, PhD 04:14-15

Cancer

Advances in treating early breast cancer 11:54-62
 Case of the Month 02:68
 Case Report: Classic Kaposi's sarcoma 07:44-46
 Ductal lavage ineffective in finding breast cancer (P) 01:61
 Fecal DNA testing more sensitive than Hemoccult II (P) 03:61
 Low-dose aspirin doesn't lower women's cancer risk (WHS) (P) 10:78
 Statins associated with reduced risk of colorectal cancer (P) 09:60
 Vaccine effective against HPV (P) 02:55
 Widespread rash in a man with leukemia (DD) 01:53

Cardiology

ASA prevents stroke, not MI, in women (P) 07:62
 Atrial fibrillation: New theories, emerging treatments (CME) 06:36-41
 Case of the Month 05:72
 Chelation therapy for heart disease (W) 01:57-58
 Diuretics the first choice in hypertensive blacks and nonblacks (P) 07:62
 Endoscopic vessel harvesting in coronary artery bypass graft surgery 11:40-53
 High resting heart rate a risk factor for sudden cardiac death (P) 08:61
 Optimal oral antiplatelet therapy for vascular disease (P) 01:61
 Quality of life with rate or rhythm control in atrial fib (AFFIRM) (P) 04:61
 Routine funduscopy not useful in hypertensives (P) 10:78
 Vitamin E not helpful, perhaps harmful (P) 03:61

Case Report

A foreign body in the urethra 09:48-50
 Classic Kaposi's sarcoma 07:44-46
 For facial swelling, look below the belt 10:57-68

CME article

A comprehensive approach to primary headaches 11:16-22
 A comprehensive review of tremor (RR) 12:43-50
 A conservative, cost-effective approach to fibromyalgia (RR) 09:32-37
 Altered mental status: Cause determines treatment (RR) 02:16-22
 Atrial fibrillation: New theories, emerging treatments 06:36-41
 Childhood obesity: Curbing an American epidemic 12:32-38
 Current trends in diabetes management 08:23-29
 Detecting celiac disease in adult patients 10:45-50
 Enhancing contraception: A comprehensive review (RR) 07:26-33
 Evaluating acute abdominal pain in adults (RR) 03:22-29
 Evaluation and management of hypercalcemia (RR) 06:30-35
 Evaluation and management of peripheral edema (RR) 11:29-34
 Gestational diabetes: Is your patient at risk? 05:26-30
 Heatstroke—Predictable, preventable, treatable 08:30-35

Injury-related causes of acute knee pain 07:34-40
 Nerve entrapments of the wrist: Early treatment preserves function 04:18-23
 Nine key questions to address polypharmacy in the elderly 05:32-37
 Oral rehydration therapy in children with acute gastroenteritis (RR) 01:24-29
 Postmenopausal hormone replacement therapy after the Women's Health Initiative 01:30-37
 Severe GERD: Effective treatment prevents potentially serious complications 04:25-29
 Strep throat: Guidelines for diagnosis and treatment 09:38-44
 The metabolic syndrome: Modify root causes, treat risk factors 03:30-36
 The PA as exercise advocate: Prescribing exercise for patients 02:24-30
 Urinary problems in the elderly adult (RR) 10:35-41

Communication

How to make the "difficult" patient encounter less difficult 05:49-54

Dermatology

A case of scarring alopecia 12:74
 Case Report: Classic Kaposi's sarcoma 07:44-46
 Melanoma incidence is not really rising (P) 12:78

Dermatology Digest

A case of scarring alopecia 12:74
 A persistent "fungal infection" on the face 05:61
 A 63-year-old woman reports new changes in a long-standing "rash" 10:71
 An "infection" that antibiotics won't cure 07:56
 Making a bad situation worse 03:55
 Multiple "warts" on the lower legs of a 52-year-old woman 11:66
 Painless lesions and an odd biopsy result 06:54
 Think again about that pedicure 09:62
 Widespread rash in a man with leukemia 01:53

Diabetes

ACE inhibitors beneficial in diabetics (P) 01:60
 Current trends in diabetes management (CME) 08:23-29
 Gestational diabetes: Is your patient at risk? (CME) 05:26-30
 Home glucose monitoring makes little difference in type 2 diabetes (P) 11:64
 Hyperbaric oxygen prevents major amputation in diabetic patients (P) 04:61
 Lower risk of type 2 diabetes in coffee drinkers (P) 10:78
 The metabolic syndrome: Modify root causes, treat risk factors (CME) 03:30-36
 Tight BP control prevents blindness in diabetic patients (UKPDS) (P) 02:55

Diagnostic Imaging Review

A long-term smoker with right-sided weakness and "heaviness" in one leg 12:75-77
 Diffuse joint pain in a man with an obstructed bronchus 08:58-59
 Knee pain and a limp after a fall 10:72-77
 Management of traumatic femoral shaft fractures 02:50-51

Disaster medicine

Preparing for disasters: What should you know, and when should you know it? 03:40-53

Down syndrome

Medical management of the adult patient with Down syndrome 04:45-52

Drugs

A tale of two coxibs (N) 03:14-17
 Nine key questions to address polypharmacy in the elderly (CME) 05:32-37

Edema

Evaluation and management of peripheral edema (CME/RR) 11:29-34

(CME) CME article
 (DD) Dermatology Digest
 (DI) Diagnostic Imaging Review

(E) Editorial
 (GE) Guest Editorial
 (IR) In Retrospect

(N) In the News
 (PAQ) PAQ—PA Quandaries
 (P) POEMS

(RR) Recertification Refresher
 (SB) Sounding Board
 (W) When the Patient Asks

Editorial

Hyperpharmacotherapy in someone you love 09:12-13
 Lessons learned 06:16-17
 Opportunity knocks: Publishing more of what PAs need to know 01:17-18
 Sexual assault—Myths and facts 12:16-18

Emergency medicine

Fast track in the field: Another option to ease ED overcrowding (SB) 06:60-61
 Heatstroke—Predictable, preventable, treatable (CME) 08:30-35
 Hypothermia—potentially deadly all year round 06:47-52

Endocrinology

Evaluation and management of hypercalcemia (CME/RR) 06:30-35

Exercise

Case studies in writing the exercise prescription 02:33-35
 The PA as exercise advocate: Prescribing exercise for patients (CME) 02:24-30

From the AAPA

AAPA comments on VHA hiring standards 08:3
 AAPA Congressional Visit Program—Speak out for your patients and your profession 08:3
 AAPA joins Partnership for Prescription Assistance 06:7
 AAPA launches Legislative Action Center 01:6
 AAPA members offered membership in American College of Physicians 01:5-6
 AAPA sends support to tsunami survivors 02:1
 AAPA submits comments on DEA retraction of pain medication guidance 06:7
 AAPA will target access to affordable health care in 2005 02:1
 AAPA's response to Hurricane Katrina 10:3
 A respected resource now available online 11:3
 Adventures in lobbying 10:3
 Annual income for PAs continues to rise 11:3
 Annual PA conference housing/registration forms now available 01:6
 CMS announces quality care initiative 05:7
 CMS proposes to relax oversight rules for critical access hospitals 10:3
 DEA withdraws pain medication guidance 02:1
 Developing new horizons in the Netherlands 09:5
 Good news for PAs in critical access hospitals 12:8
 Governor signs New Jersey controlled drug prescribing legislation 05:7
 International presence in Orlando reflects evolution of PA profession 08:3
 JAAPA has a new publisher 01:5
 Join the celebration! National PA Week, October 6-12 09:3
 Last-minute CME 12:8
 Lean about the Medicare Prescription Drug Benefit 12:8
 Looming physician shortages may boost PA prominence 04:1
 Mary Ettari, 2005-2006 AAPA President Elect 06:7
 Medicare drug benefit program posters now available 07:6
 New provider practicum in migrant health 11:3
 Nominating Committee announces candidates for general election 01:6
 Non-HIPPA-compliant claims face rejection 11:3
 On state and federal levels, achievements show the power of PA unity 03:5
 PA-like program to produce "new breed of provider" in Great Britain 09:3-5
 PAs should apply for new NPI numbers 09:3
 Plan now for the annual conference 03:4
 State action could lead to loss of certification, AAPA membership 03:4-5
 State-of-the-Art lectures from the 2005 annual conference now available online 07:6
 The PA Job Link: Your online career source 04:1
 Thirty-seven percent of PAs work in hospitals 01:5
 US Public Health Service calls for Commissioned Corps applicants 03:4
 US Virgin Islands passes PA licensing bill 07:6
 Winners of PARagon Publishing Awards announced 05:7
 Your participation is needed for the 2005 census 04:1

Gastroenterology

Case Report. For facial swelling, look below the belt 10:57-68
 Detecting celiac disease in adult patients (CME) 10:45-50
 Evaluating acute abdominal pain in adults (CME/RR) 03:22-29
 Guideline for chronic constipation management (P) 11:64
 Laryngopharyngeal reflux—It's not GERD 08:50-53
 Oral rehydration therapy in children with acute gastroenteritis (CME/RR) 01:24-29
 PPIs reduce rebleeding and need for surgery in bleeding PUD (P) 06:59
 Severe GERD: Effective treatment prevents potentially serious complications (CME) 04:25-29

Genomic medicine

Genetic testing: Understanding the basics 01:48-52
 Medical management of the adult patient with Down syndrome 04:45-52
 The Surgeon General launches new public health campaign: The Family History Initiative (N) 01:20-22

Geriatrics

Nine key questions to address polypharmacy in the elderly (CME) 05:32-37
 Urinary problems in the elderly adult (CME/RR) 10:35-41

Guest Editorial

Charting a course to competency 07:14-15, 18
 Health care illiteracy: Your chance to make a difference 05:13-14
 National PA Week: More than just a week 10:18-25
 Physician assistant supply and demand 08:11-12
 Physician assistant volunteers belong in free clinics 04:16-17
 Physician assistants and humanitarian assistance 03:11-12
 Providing a forum for PA authors practicing in surgery 11:9-10
 The right DNA 05:17-23
 Why I got a master's degree 02:11-12

Infectious diseases

Case of the Month 07:70
 Dexamethasone improves TB meningitis survival (P) 02:55
 Lamivudine slows progression in Hep B with advanced fibrosis (P) 01:60
 Leishmaniasis: Early diagnosis is key 07:47-54
 Strep throat: Guidelines for diagnosis and treatment (CME) 09:38-44
 Think again about that pedicure (DD) 09:62

In Memoriam

Eugene A. Stead, Jr, MD 07:9

In Retrospect

Good-bye to all that (with apologies to Robert Graves) 12:25-27
 Nancy and the KIDney Quilt 10:14-16
 One day at a time 01:54-55
 The second time around 07:23-25

In the News

A tale of two coxibs 03:14-17
 The Surgeon General launches new public health campaign: The Family History Initiative 01:20-22
 Treating obesity: New advice from the American College of Physicians 06:18-23

Men's health

False-positive PSA result associated with increased worry, fears (P) 04:61

Mental health

St. John's wort = SSRI for moderate-severe depression (P) 06:59

Neurology

ASA prevents stroke, not MI, in women (P) 07:62
 A comprehensive approach to primary headaches (CME) 11:16-22
 A comprehensive review of tremor (CME/RR) 12:43-50
 Altered mental status: Cause determines treatment (CME/RR) 02:16-22
 Case of the Month 03:70
 Folate and vitamin B12 lower fracture risk after stroke (P) 06:59
 Rivastigmine of some benefit in Parkinson's disease with dementia (P) 03:61
 Using aspirin to prevent stroke (W) 06:55-56
 Vitamin E, donepezil ineffective for mild cognitive impairment (P) 09:60

Ophthalmology

Case of the Month. 11:68

Organ transplantation

Liver transplantation: Managing complications in primary care 02:41-48

Orthopedics

Case of the Month 04:74; 06:70; 08:72; 09:71-72; 12:90
 Folate and vitamin B12 lower fracture risk after stroke (P) 06:59
 Injury-related causes of acute knee pain (CME) 07:34-40
 Nerve entrapments of the wrist: Early treatment preserves function (CME) 04:18-23
 Physical therapy adds little to back pain treatment (P) 01:60

Otolaryngology

Laryngopharyngeal reflux—It's not GERD 08:50-53

PA professional issues

Barriers for PAs volunteering to serve indigent populations 04:35-40
 Competencies for the physician assistant profession 07:16-18
 Health care illiteracy: Implications for providers 05:41-47
 In the beginning: a PA history roundtable 10:26-30
 Maintaining professional flexibility: The case against accreditation of post-graduate physician assistant programs 08:14-16
 Quality incentive programs: How AAPA policy affects you 09:18-31

PAQ- PA Quandaries

The case of Mr. S. 05:24-25

Pain

A conservative, cost-effective approach to fibromyalgia (CME/RR) 09:32-37
 Acupuncture effective for chronic back pain (P) 08:61
 Acupuncture ineffective for fibromyalgia (P) 11:64
 Diagnosis unaffected by giving kids narcotics for abdominal pain (P) 07:62
 Evaluating acute abdominal pain in adults (CME/RR) 03:22-29
 Gabapentin + morphine marginally better than either alone for neuralgia (P) 07:60
 Physical therapy adds little to back pain treatment (P) 01:60

Patient information

Chelation therapy for heart disease (W) 01:58
 Health benefits of exercise 02:30
 How to prevent a stroke (W) 06:56
 Should I have a test for homocysteine (W) 09:58
 The safe use of medications 05:37
 Thoracic outlet syndrome (W) 05:58

Pediatrics

Childhood obesity: Curbing an American epidemic (CME) 12:32-38
 Diagnosis unaffected by giving kids narcotics for abdominal pain (P) 07:62
 Oral rehydration therapy in children with acute gastroenteritis (CME/RR) 01:24-29
 Parents satisfied with no treatment of otitis (P) 09:60
 Vision screening of young children: Taking a second look 08:41-49

POEMs

ACE inhibitors beneficial in diabetics 01:60
 ASA prevents stroke, not MI, in women 07:62
 Acupuncture effective for chronic back pain 08:61
 Acupuncture ineffective for fibromyalgia 11:64
 Dexamethasone improves TB meningitis survival 02:55
 Diagnosis unaffected by giving kids narcotics for abdominal pain 07:62
 Diuretics the first choice in hypertensive blacks and nonblacks 07:62
 Ductal lavage ineffective in finding breast cancer 01:61
 False-positive PSA result associated with increased worry, fears 04:61
 Fecal DNA testing more sensitive than Hemoccult II 03:61
 Folate and vitamin B12 lower fracture risk after stroke 06:59
 Gabapentin + morphine marginally better than either alone for neuralgia 07:60
 Guideline for chronic constipation management 11:64
 High resting heart rate a risk factor for sudden cardiac death 08:61
 Home glucose monitoring makes little difference in type 2 diabetes 11:64
 Hyperbaric oxygen prevents major amputation in diabetic patients 04:61
 Intermittent = continuous therapy for mild persistent asthma 07:60
 Lamivudine slows progression in Hep B with advanced fibrosis 01:60
 Long-acting injectable naltrexone reduces heavy drinking 07:60
 Low-dose aspirin doesn't lower women's cancer risk (WHS) 10:78
 Lower risk of type 2 diabetes in coffee drinkers 10:78
 Melanoma incidence is not really rising 12:78
 Negative CT scan to rule out PE equal to angiography 08:61
 No difference among new antidepressants 12:78
 Optimal oral antiplatelet therapy for vascular disease 01:61
 Outpatient = inpatient for many with pneumonia 05:62
 Parents satisfied with no treatment of otitis 09:60
 Physical therapy adds little to back pain treatment 01:60
 PPIs effective for diagnosis, treatment in noncardiac chest pain 10:78
 PPIs reduce rebleeding and need for surgery in bleeding PUD 06:59
 Quality of life with rate or rhythm control in atrial fib (AFFIRM) 04:61
 Rivastigmine of some benefit in Parkinson's disease with dementia 03:61
 Routine funduscopy not useful in hypertensives 10:78
 Screening for HIV in general population not cost-effective 05:62

Shared decision making not for all patients 12:78
 St. John's wort = SSRI for moderate-severe depression 06:59
 Statins associated with reduced risk of colorectal cancer 09:60
 Three days of Cipro better for uncomplicated UTI 05:62
 Tight BP control prevents blindness in diabetic patients (UKPDS) 02:55
 Vaccine effective against HPV 02:55
 Vitamin E, donepezil ineffective for mild cognitive impairment 09:60
 Vitamin E not helpful, perhaps harmful 03:61

Public health

A clinician's guide to condoms, spermicides, microbicides, and lubricants 12:61-69
 Acute carbon monoxide exposure: Diagnosis, evaluation, treatment 01:41-46
 Barriers for PAs volunteering to serve indigent populations 04:35-40
 The Surgeon General launches new public health campaign: The Family History Initiative (N) 01:20-22

Recertification Refresher

A conservative, cost-effective approach to fibromyalgia (CME) 09:32-37
 A comprehensive review of tremor (CME) 12:43-50
 Altered mental status: Cause determines treatment (CME) 02:16-22
 Enhancing contraception: A comprehensive review (CME) 07:26-33
 Evaluating acute abdominal pain in adults (CME) 03:22-29
 Evaluation and management of hypercalcemia (CME) 06:30-35
 Evaluation and management of peripheral edema (CME) 11:29-34
 Oral rehydration therapy in children with acute gastroenteritis (CME) 01:24-29
 Urinary problems in the elderly adult (CME) 10:35-41

Sexual Health

A clinician's guide to condoms, spermicides, microbicides, and lubricants 12:61-69
 Yes, the sexual history IS important 12:70-72

Sounding Board

A fresh look at clinical excellence 04:55-56
 Evidence-based medicine? Show us the evidence! 02:56-57
 Fast track in the field: Another option to ease ED overcrowding 06:60-61
 It's 8 AM. Do you know who your gay and lesbian patients are? 10:69-70
 On the front lines of caring for people with AIDS 09:52-54
 Reflections on a residency 08:54-57
 Yes, the sexual history IS important 12:70-72

Special Article

Competencies for the physician assistant profession 07:16-18
 Maintaining professional flexibility: The case against accreditation of post-graduate physician assistant programs 08:14-16
 Quality incentive programs: How AAPA policy affects you 09:18-31

Surgery

Endoscopic vessel harvesting in coronary artery bypass graft surgery 11:40-53

Urology

Case Report: A foreign body in the urethra 09:48-50
 Three days of Cipro better for uncomplicated UTI (P) 05:62
 Urinary problems in the elderly adult (CME/RR) 10:35-41

Volunteering

Barriers for PAs volunteering to serve indigent populations 04:35-40

When the Patient Asks

Chelation therapy for heart disease 01:57-58
 Measuring the homocysteine level 09:57
 Thoracic outlet syndrome 05:57-58
 Using aspirin to prevent stroke 06:55-56

Women's health

Advances in treating early breast cancer 11:54-62
 ASA prevents stroke, not MI, in women (P) 07:62
 Case of the Month 01:68; 10:88
 Ductal lavage ineffective in finding breast cancer (P) 01:61
 Enhancing contraception: A comprehensive review (CME/RR) 07:26-33
 Gestational diabetes: Is your patient at risk? (CME) 05:26-30
 Low-dose aspirin doesn't lower women's cancer risk (WHS) (P) 10:78
 Postmenopausal hormone replacement therapy after the Women's Health Initiative (CME) 01:30-37
 Vaccine effective against HPV (P) 02:55
